# Valuing Care

Valuing Care are uniquely placed to provide an insight into what represents a fair price for care in the UK care market.

Well-recognised as the market leader and industry expert, our unrivalled skills and knowledge, combined with our comprehensive database of cost averages sets us apart from anyone else.

## Who we are

We help local authorities, NHS organisations, and care providers understand and agree fair prices for care. Backed by 13+ years of data and a team of care cost specialists, we are the market leader in analysing and validating care fees.

## Our services

### Cost of Care Projects

Analyse local costs and set transparent base rates

### Complex Case Pricing

Create and simplify models for CHC and adult services

### New Placement Negotiations

Fast, accurate price checks

### Cost Reviews

Review legacy and block contracts

## Why choose us?

100+ Clients

£15m Savings

Online Tools

6,000+ Cases

### OUR THERAPISTS

Spinal & Natural Healthcare Centre's sports massage therapists Lisa McMahon and Jon Ward treat soft tissue injuries and are specialists in human movement and the restoration of muscles and other soft tissues.

### SPORTS MASSAGE THERAPY

We can offer help with differing levels of muscle soreness or tightness and in some cases strains or sprains.

We treat a range of people with Sports Massage Therapy, from semi-professional footballers, recreational sports enthusiasts, runners, horse riders all the way through to builders and office workers.

Within this diverse range every person has an individual need, so whether you are an athlete looking for a pre or post event massage, have developed an injury arising from excessive training, or if you are a plasterer feeling pain due to repetitive movement, we can provide the right treatment tailored to your needs.

Even if you have tight calf muscles after a night out dancing, Sports Massage can help, it isn't just for elite athletes.
